BMGT Monthly meeting

Sharon Wilkerson, Dan Daly, Tony Brazzale, Mick Hurrey, Angela Ashton, Ed Yokley, Janet Bryant

Recap of San Diego business meeting

The Division has accomplished most of the goals set in the strategic plan and the goals seem to still be relevant. The Vision needs updated. Tony will update the Vision.

Mick has contacted ACS Marketing person Steve Vesh who will put us in touch with vendors to accomplish our goal of a combined marketing plan once we give him a draft of our IT plan. Dan and Tony will create the draft by the end of this month. Combining resources with SCHB is a possibility to maximize both our impact. The BMGT/SCHB combined social hour in San Diego was a hit.

BMGT yearly dues will remain as they are for the coming year. Sharon will find the form Jared turned in last year to be sent in this year. Mick will contact John Katz about an exit survey for all BMGT dropouts. A survey must be created.

Janet has the 2006 member survey and will forward it to Dan.

IAC Global Innovation Grants

What could we do to get these grants?

AWIS

Think of outstanding women to nominate for this award.

Awards

The Whalen award criteria have been set and the history/criteria will be available soon. The 2012 Whalen award recipient will be confirmed next week.

BMGT has nominated 4 members of BMGT for ACS Fellows. All are on track except for Bronco. Sharon will remind Bronco to turn in his form before the end of this week. Janet will forward the template to the Exec Committee. The BMGT ACS Fellows will be announced at the Whalen award symposium.

The Industrial Chemistry Award will be shared with I & EC for 3 years and will revert to BMGT in 2015. Angela is working on corporate sponsorship of the \$5,000 award.

Programming

San Diego programming went very well considering our location. Attendance was in the 40 -50 range. The lack of students during the panel discussion was frustrating.

For Philadelphia we have requested to be co-located with ComSci and SCHB for our programming. We only have to events planned so far, the Whalen symposium and the BizPlan.

M3 Update

We have collected \$38,000 and are expecting another \$2,000 in checks soon. 31 attendees have registered and we have surpassed the break even point. The conference is less than 5 weeks away, May 19-22.

Newsletter

Dan will send the newsletter PDF to Tony for an e-mail blast and Mick and Janet will contribute the Councilors update from the Spring meeting and Janet will also create a report on the CEC activities from San Diego for the blast. Tony will also teach Dan and others how to access the vertical response software.

Action Items

Dan and Tony – Create IT plan draft for Mick to present to Steve Vesh

Tony – Teach Dan et. all to use the e-mail blast software

Janet – Send the Fellows template to the Exec Committee

Janet – Send the 2006 member survey to Dan

Janet and Mick – Councilor talking points from San Diego meeting to Tony

Mick – Contact John Katz for exit survey on dropout members

Sharon – Find form to send to ACS for dues confirmation
